Instructions:

(Return to: Kelsey Sullivan, MDIFW, 650 State Street, Bangor, ME 04401)

- Record sightings during the month of August only
- Make out a separate card for each flock of turkeys, including those without poults
- Record sightings only when you can safely stop and count the turkeys present. Use binoculars when possible. Do not report partial counts.
- Record the sex for all adults present. Generally, but not always, most will be the same sex in any given flock during August.
- At this time of year there should be a noticeable size difference between adults and poults so you are counting big birds and little birds.
- Make an attempt not to report the same flock multiple times.
